Date: 16 September 2026
Subject: Damaged tablets – Paracetamol 500 mg, Batch PCM24031

Dear Quality Team,

I am writing on behalf of GreenLeaf Pharmacy, Pune, India (phone +91 98200 11223) to report a quality issue with Zenith Paracetamol Tablets 500 mg manufactured by Zenith Pharma Pvt. Ltd. The affected batch is PCM24031, manufacturing date 02 March 2026, expiry date 28 February 2028.

On 15 September 2026 a customer returned a strip in which several tablets were chipped and broken inside the sealed blister pockets. We inspected our remaining stock and found 3 more strips (approximately 12 tablets in total) with the same problem. The blisters themselves were sealed and undamaged, so the breakage appears to have occurred before packaging.

No patient consumed the broken tablets and no health effects have been reported. We have retained the affected strips and can send them to you as a sample for investigation. We do not suspect the product to be counterfeit; it was purchased through your authorised distributor.

Please confirm receipt of this complaint and let us know how you would like us to proceed with the returned stock.

Kind regards,
Rahul Sharma
Pharmacist-in-charge, GreenLeaf Pharmacy
